

Rocky Chowdhury

Junior Full Stack Developer

rocky20809@gmail.com | +880 1639 066718

LinkedIn: [rockychowdhury1](#) | Github: [rockychowdhury](#)

Portfolio: [rocky-chowdhury.netlify.app](#) | Dhaka, Bangladesh

Education

BSc in Computer Science & Engineering

CGPA 3.60 out of 4.00

Prime University, Bangladesh

2022 - 2026

Problem Solving & Competitive Programming

Solved **700+ DSA problems** and participated in **70+ competitive programming contests**

- CodeChef: ([rocky20809](#)), **Highest Rating: 1592**, 2★ coder
- Leetcode: ([Rocky20809](#)), **Highest Rating: 1556**, Top 30%
- Codeforce: ([__Cipher__](#)), **Highest Rating: 1215**, Pupil

Skills

Core Skills: Problem-Solving, Data Structures & Algorithms, OOP, C++, Python

Frontend: HTML, CSS, Tailwind, JavaScript, React, TanStack Query

Backend: Django REST Framework, Django-Q, Redis, Celery, JWT, PostgreSQL

Tools: Git, Github, Docker, Postman, Firebase

Soft Skills: Adaptable, Growth Mindset

Projects

PetCarePlus - Full-Stack Pet Care & Rehoming Platform

[Live](#) | [Github](#)

Full-stack pet services and rehoming platform with AI-assisted screening and intelligent booking.

Tech: Django DRF, Django-Q, Redis, **Google GenAI**, React, PostgreSQL, JWT, Tailwind, Docker

- Geospatial search optimization (Haversine, Django ORM) – 40% faster queries
- AI-driven adoption screening & suitability scoring (Google GenAI)
- Intelligent availability & booking conflict resolution engine

Employee Management System - Full Stack Role-Based Dashboard

[Live](#) | [Github](#)

Role-based employee and payroll management dashboard.

Tech: React, MongoDB, JWT, Express.js, Firebase Auth, Tailwind, TanStack Query, TanStack Table

- Role-based authentication and authorization using Firebase Auth and JWT
- Real-time dashboards with full CRUD functionality for payroll and employee management
- Responsive UI built with Tailwind CSS and React hooks for efficient state management

AltRec - Full Stack Q&A-Based Product Recommendation System

[Live](#) | [Github](#)

Q&A-based personalized product recommendation platform.

Tech: React, Tailwind, Node.js, Express, MongoDB, Firebase Auth, JWT

- Secure product recommendation platform with Firebase Auth, JWT, and RBAC
- Product query submission, tracking, and personalized recommendation workflow
- Responsive dashboards powered by Express and MongoDB backend

Leadership & Extracurricular Activities

Vice-President, Prime University Computer Programming Club

2023 - 2024

- Conducted workshops on DSA, C++, and problem-solving techniques
- Organized programming contests, seminars, and the annual CSE Fest
